

Unused colored imported from termcolor

Unused variable 'totalquantity'

Using the global statement – can't think of another way to only run function once

Missing module docstring

standard import "from collections import Counter" should be placed before "import gspread"

Constant name "initial_screen_display_has_run" doesn't conform to UPPER_CASE naming style

Lines too long on four occasions

Lots of trailing white spaces

Constant name "finished_order_boolean" doesn't conform to UPPER_CASE naming style
